Weddings include spontaneous events and personal emotions that only good photography can capture. Flash-Images combines both traditional and photojournalistic styles in order to create images appealing to everyone involved. Flash-Images will strive to make sure that your wedding photography expectations are exceeded and the memories of your wedding day are preserved with unique and beautiful photographs.

Choosing the right photographer is one of the most important decisions in your wedding planning. With Flash-Images' reputation of quality work as well as competitive pricing, we hope to make your decision easier. In addition to our choices of all-day picture packages, we offer a wide variety of a la carte items to ensure that your choice is as perfect for you as it is for your budget.

Our goal is to document your wedding unobtrusively while capturing the energy and excitement of your day. Flash-Images brings the technical knowledge, an artistic eye, careful attention to detail, and the ability to make everyone feel comfortable throughout the day. The result is photographs that look relaxed and natural, yet elegant. The emotions of your wedding will happen only once, but you will be able to look back upon them forever.

What to Expect

You will be contacted prior to the wedding to gather all important information and special requests for the day of the event. There is no need to rush any of these decisions as everything can be changed right up to the wedding day itself.

On the wedding day, photography will commence according to the package agreement you have chosen. Be assured that there are no time restrictions. Our main concern is to get all the images needed to produce comprehensive and satisfying coverage of the day's events.

Approximately 3-4 weeks after your wedding, you will receive your proofs presented in an album as a narration of your day. You may also choose to have your proofs available online for friends and family to view and purchase. Online proofs can be available in as little as 1 week!
